

# You'll never believe what's behind these doors.

Cousin Vinnie's chain saw? Your old high school yearbooks? A life size stuffed Panda for your daughter's birthday? Not only does freedomRail® Garage keep things off the floor and out of sight -- beautifully -- it's also truly adjustable. Arrange cabinets, shelves, lockers and cubbies one way today, another tomorrow. Switch from Panda's lair to tool chest in less time than it takes to sing Happy Birthday.

**freedomRail®**
