

Take Control of Today's Clutter with the **Ultimate** in Style and Function.

Introducing the UltiMATE GARAGE, a state of the art system that adds style and sophistication through modern design. Transform your old garage into a functional workspace that provides plenty of storage options for tools, sporting goods and household items.

The UltiMATE GARAGE is built using poly-coated MDF doors and drawers for a clean, finished and refined look. Cabinets are assembled using a thermofused PVC laminate for maximum strength and stability.

Contemporary style and engineering makes UltiMATE GARAGE the only choice for discerning homeowners.

- Fully Modular, expandable designs.
- Rounded corners provide clean lines & contemporary style.
- PVC Laminate over MDF material for maximum strength and stability.
- Ergonomically designed hardware.
- Wall hanging or adjustable feet support heavy loads.
